THURSDAY MORNING, SEPT. 27, 1866.

American Citizenship.

It has been the proud [illegible] who were entitled to say "I am an American citizen." [illegible] at the present day we find many who are drawing a comparison [illegible] protection afforded by the several governments throughout the world, and who seem to, and even do, attribute to our Government a want of protection to those who have sought a land that guaranteed them an asylum free from all arbitrary rule which attempts to control their consciences! Yet the fact is apparent that here, upon American soil, there exists a portion of the inhabitants of Utah who, in open defiance of law, but with a pretence of justice, ignore [illegible] citizens whose lives were threatened, and only spared by a promise to leave the Territory, should awaken our rulers at Washington to a true sense of their duty and providing means for our protection.

Let us not, after giving such evidence of our ability to punish those who assail the principles and attempt to destroy the very fabric of our Government as we have done during the last four years, stop there, but let us maintain the position we have assumed, and by prompt and energetic action prove that we can and will sustain those who have ever been proud to call themselves American citizens, whether native or adopted. We have been drawn to the above conclusions by the late unlawful proceedings of men professing to act under the authority of some one, who in defiance of all law enter the premises and destroy the property of those who are ever ready to comply with all legal requirements. It is time that the right of the citizens of the country should be protected, and as a body we demand that our Government will look into the matter and take such measures as will ensure protection to the innocent and punish the guilty.

"Lo! the Poor Indian."

If we copied from our exchanges all the accounts of Indian outrages and murders which have occurred since the so-called treaty at Fort Laramie was ratified, our columns would be filled with the horrible details. Upon this account we have not placed them before our readers, although the fact is well known that the Sioux had the tribes with which they are connected by marriage, had on the war path. The New York *Herald*, and most of the newspapers that are published east of the Mississippi, refuse to give these statements any credit, and denounce them as falsehoods which have been invented by contractors, freighters and contractors.—They maintain that the last named parties are seeking to make money out of the Government by furnishing and transporting supplies for the troops that have been stationed upon the plains. If the owners of mules and horses which have been stolen by the savages follow the thieves and shoot them, their conduct is always denounced as murder, and throughout the country the press contain leaders regarding the atrocities of the whites. The attentions of Indian agents and commissioners, who, by the way, generally grow rich very suddenly and mysteriously, are accepted by the majority of the people as the essence of truth; and correspondents and editors cannot ascribe any bad motive to them.

It is needless to repeat what has appeared in the *Post* so often regarding the policy of bestowing presents upon the miserable wretches who are determined to limit the progress of the United States by the arrow and the scalping knife. The pioneers and hunters, a class of men that have acquired a deep insight into their character and purposes, utter the results of experience and are unheeded. But if Longfellow carries poetic license to the verge of absurdity in his cantos and sings of "Hiawatha," he readily gains the attention of the world, and thousands of sentimentalists weep over the "poor and unfortunate" Indian. How long will these fancified sketches be accepted as wisdom by the authorities? How many families must be massacred, how many mothers and helpless infants must be tortured and mutilated, and how many industrious citizens must be robbed and ruined by these infernal demons to affect the policy of the Government?

The only course, which the victims of the savage can pursue at the present time, is the extreme. They must defend themselves and rely upon their brave hearts and stalwart arms for complete protection. They must teach him to respect their rights, not by the phrases of a treaty which is disregarded as soon as it is signed, but by the emphatic and long-remembered lesson of gunpowder and lead. When a distinguished general, or some member of a Congressional coterie of tourists to the mountains, is struck down by these vagabonds and a chief suspends such a rare scalp to his belt, it is thought that this matter will be revolutionized. We do not express the hope that such a tragical event will take place, but may conclude by observing that many residents in the Territories, would not shed tears of sorrow, if it did.—*Montana Post*, 15th.

IN TOWN.—James G. Hughes, Esq., of the Holladay O. M. & E. Co., arrived in town this week for the purpose of establishing a banking house in this city. Mr. Hughes has been cashier of the above Company's bank in Salt Lake City, where he was universally esteemed. He was welcomed here by a host of friends.—*Utah Reporter*, 15th.

No gentleman in this city had more friends than Jimmy Hughes, and while we are very sorry to lose him we wish him every success in his new locality.

THE New York *Tribune*, *Herald* and *Times*, claim that they are now paying from $5,000 to $7,000 per day, for dispatches from Europe. This will aggregate the expenses for a single year at $1,500,000. No journals in Europe could endure such terrific charges.

Chicago, Sept. 25.

There is an unprecedented demand in this market for Wheat, Flour, etc., to fill Eastern orders. Flour to-day advanced 20@25c; wheat advanced 5@9c, closing a 2 20@2 22; corn advanced 4@4½c, closed with an advance of 3c for No. 1, in store.

New York, Sept. 25.

Flour 15@25c better for inferior, all other descriptions without material change. Wheat 3@5c better, closing at $2 10 for old Chicago spring, and $3 10 @3 15 for new white Michigan. Corn opened 1c better, but closed quiet at yesterday's quotations at 87½@90.

The Commercial's money article says: The stock market exhibits a fair degree of activity, although many operators are absent to attend the inauguration of Jerome's driving park. Government show rather more activity and are slightly firmer. Gold retains yesterday's improvement, and foreign exchange shows more activity and firmness.

Over twenty thousand persons attended Jerome's park, near Fordham. Gen. Grant was an interested spectator.

Colonel Meady, the Ohio fighting parson, offered prayer, and Gen. Henry A. Barnum, of New York, from the committee of State delegations, reported L. E. Dudley, late private, 13th Massachusetts Infantry, for temporary Chairman. Gen. Barnum said Dudley held a clerkship in the Treasury Department and was the efficient Chairman of the District of Columbia. Being denied a leave of absence, he (Dudley) had resigned the clerkship.

Dudley was escorted to the chair, amid great applause, and spoke a few modest words of thanks.

After the appointment of committees, the "drummer-boy of the Rappahannock," private Hendershott, was introduced, and beat the long roll.

The committee reported Gov. J. D. Cox, of Ohio, for permanent President, who made a brief speech.

The Convention adjourned till to-morrow.

New York, Sept. 25.

The Tribune's special says: Official information received from Benham, Texas, show that place to be in a state of insurrection. The citizens are all armed, and patrol the streets to prevent soldiers from coming into town. The Mayor and Sheriff are reported to have [illegible] to the Adjutant General of the State to know how many men he could furnish to drive the Yankees off. A reply is said to have been received offering 5,000 well armed men, and more if necessary. The officer in command of the detachment of United States troops, numbering about sixty men, had entrenched and otherwise fortified his position, and after receiving a large supply of ammunition from Galveston, expressed confidence in being able to withstand an attack. General Sheridan left for the scene of action this morning.

Ogdensburg, Sept. 25.

It is reported on good authority that a large number of Fenians are concentrating in the north for a raid into Canada.

Chicago, Sept. 26.

Washington specials say a committee appointed by the Cleveland Soldiers' Convention waited on the President yesterday and presented him with a copy of the proceedings. The President briefly responded.

Dr. Elder, the well known statistician of the Treasury Department, has resigned.

John Wilson, now the third Auditor of the Treasury, is strongly pushed for Assistant Secretary of the Treasury, vice Chandler to be removed for radicalism.

Among the late appointments are Albert Taxbury, receiver at Omaha, Nebraska City, and Edward P. Reed, Commissioner of the Land Office, Nebraska City.

The arrival of troops in Washington has given rise to exaggerated rumors of an intended concentration of 25 or 30,000 troops around the National Capital. The fact is the number of troops here has for some months averaged only 2 or 3,000, and [illegible] number, when all the arrivals are completed, will not exceed 5,000.

The Government has received no information from Gen. Sheridan of the reported insurrection in Texas, and that he has gone to the alleged scene of difficulty, though he has left for Texas on a general inspection duty.

An Irishman in describing the trading powers of the genuine Yankee, said:—"If he was cast away upon a desolate island, he would sell you the next morning and go around selling rights to the inhabitants."

JULY, 1866, is said to have been the hottest month known for ninety years.

The Daily Union Vedette

Local and Miscellaneous.

TO ADVERTISERS.—The VEDETTE is the pioneer daily newspaper of Utah. Its immense circulation in every mining camp and city of Montana and Idaho, (to which it gives the only reliable despatches a week in advance of the Pacific papers,) makes it the most advantageous medium for advertising in those three rapidly growing Territories.

READ the new advertisement of Carpet Sack lost from the Overland Stage by McA. & Co. Agents of the Telegraph Line.

GEORGE FRANCIS TRAIN announces himself as an independent candidate for Delegate in Congress from Nebraska.

GEN. Connor will return to Utah in about ten days.

THE grasshoppers are overrunning a large portion of Kansas.

S. J. FAIRBITE, editor of the Montana Radiator, has returned home after a visit of several weeks in this city.

OUR UNCLE.—Dickens, in speaking of pawnbrokers' duplicates, says they are the turnpike tickets on the road to poverty.

THICK AS HOPS.—In Kansas there are said to be at this time 21 candidates for the position of member of Congress, 12 for Governor, and 17 for U. S. Senator.

EX-GOVERNOR Henry Connelly died at Santa Fe, New Mexico, on the 11th.

FOR SALE.—A first class Sewing Machine. Apply at McGrorty & Henry's Commission House.

NEBRASKA STATESMAN.—The above is the title of a new Democratic daily published by Harvey Bros., Nebraska City, N. T.

MR. BIERSTADT has a large collection of sketches of his overland travel, which will presently be put into a volume, with accompanying letter-press notes by Miss Lander, the authoress, and sister of Gen. Lander.

JOHN KELLY.—The concert of this distinguished vocalist and violinist came off at Camp last Monday evening, giving the best of satisfaction. Mr. Kelly will give one or two more concerts in this city before his departure for the East.

IF those persons in this city, who are too poor or too mean to purchase a copy of the VEDETTE will call at the office they will be furnished with one, providing they will desist from stealing it from under our subscribers' doors.

THEATRICAL.—The Managers of the Salt Lake Theatre have effected an engagement with the Irwins, and they will make their first appearance Saturday evening. Hereafter there will be three performances a week. Mr. A. R. Phelps closed his engagement last night, and goes to the States within a few days.

MILITARY MATTERS.—The Lawrence *Tribune* has a rumor to the effect that the headquarters of that military district were about to be transferred to St. Louis: that the Fort will be abandoned, and used hereafter only as a military post; and that the business heretofore transacted there will be done at Fort Ellsworth. There seems to be no ground for this rumor.

NEW PAPER.—We are in receipt of the first copy of the Semi-weekly Idaho *Times*, published at Idaho City, L. T., by Messrs. Shepherd & Co., at $15 per year and $5 per quarter. It presents a fine typographical appearance, and is well filled with interesting reading matter and paying advertisements. In politics it is neutral. We cheerfully extend the X.

ACADEMY OF MUSIC.—The farewell concert of the Budd Wellington Troupe at the Academy of Music Tuesday evening gave better satisfaction than any that they have yet given. The troupe intend making a tour through the country towns, but we are pleased to learn that they will return to this city during Conference time and give a series of concerts.

WHO DID IT.—The ruffians who attempted to murder the preemptors on the Jordan last Monday night stated that they were *obeying orders*. Who gave them those orders? Of course Brigham didn't—he was out of town; but who except a Prophet possesses sufficient foresight to always leave town just the day before, whenever any places or persons are to be "cleaned out."

NEW IMPROVEMENTS.—Messrs. Gilbert & Sons have received a large lot of the celebrated Atmospheric Coal Oil Gas Lamps, which go ahead of anything in that line which has ever been brought to this country. They burn common coal oil, but by means of a little fan wheel in the bottom, which runs on the principle of a clock, gas is generated, and a light fully as brilliant as any gas jet is furnished, with no more expense than attends a common lamp. They are also very simple, economical and durable in their construction, and as an ornamental lamp for the parlor they are unsurpassed. We have been provided with one, which gave us the excellent satisfaction that we were forced to sit up all of the first two nights to see it burn.

From Idaho.—We have the Hon. A. G. Turner, an influential and prominent citizen of Idaho City, from whom we learn that Gov. John A. Creighton, Esq., who informs us that the telegraph line thither will be a speaking success. Col. Sam. Woodward, the well known merchant of Boise Valley, is counted to Woodward of the S. F. fame. This whom a cleverer gentleman lives not at "the Bay."

MAJOR BRIDGER.—This pioneer of forty-four years standing, came to town a week ago with despatches from Col. Carrington to the Governor. He is looking tough, and will probably live forty-four years longer. He witnessed the fargo, called by some a treaty, which was made at Ft. Laramie a few years since. The "fort beggars," he says, were the only chiefs that devoured the Government rations and received the presents. Some of the Indians rode into camp upon horses which were remarked "U. S.," that they had stolen from Ohio troops. He sees nothing but war ahead, and boasts that, if the authorities at Washington will furnish him the means, he will "clean out" all the hostile tribes in one summer. There is no doubt in allowing him to try his plan, and as most regular army officers never fight the red braves, if they can avoid it, we say to the gallant Major, "pitch in." Among the interesting incidents recounted is this: At one point, where a skirmish was recently going on, a stewardly driver was in the act of leaving the ambulance to certain capture, but was prevented by a heroic woman, Mrs. Templeton, who drew a revolver and compelled him to remain at his post of duty.—*Montana Post, 15th.*

IT is a curious coincidence that the Great Eastern left the Irish coast to lay the cable on a Friday, and on a Friday Columbus set sail for the new world.—On a Friday, too, the Great Eastern reached Heart's Content, and on Friday Columbus first saw the shores of the western world.

THE colony of Victoria, being bankrupt, the schools are to be discontinued and all officers save postmasters and policemen dismissed. The insurance companies are asked to subscribe towards maintaining these departments. Work in the collieries is suspended, also, as there is no sale for the coal.
